Information Systems Courses

IMIS Professional Qualifications in MIS - Foundation Level

The Institute of Management Information Systems (IMIS) is the leading professional association in the Information Systems management sector. It has consistently played a prominent role in fostering greater understanding of the importance of IS management, working to enhance the status of those engaged in the profession, and promoting higher standards through better education and training in the UK and overseas. IMIS focuses specifically on the practical application and management of information systems within society. IMIS is known for its focus on practical issues involved in the use and management of IT. IMIS programmes go beyond purely technical aspects looking at how and where technology will be used.
